Data Parsing and Logging Library
C++ · boost::asio · std::chrono
Thread #1
Telemetry Parser
Thread #2
Resolver Position Readout
Thread #3
Software Watchdog
TelemetryParser Class
- Reads serial via boost::asio
- Decodes incoming payloads
- Perform CRC checks
Read telemetry parameters from serial
Read position from serial
Software Watchdog
- Using std::chrono
TelemetryLogger Class
Save in csv file
Resolver Logger Class
AD2S12101 Class
- Resolver readout IC
- Intefacing via Raspberry Pi
telemetry.csv
resolver.csv
